Consider Long Term Disability Insurance.

It costs less than you might think and has more value than you may be aware of.

Why do I need long term disability insurance?

Most of us take our health and our ability to work for granted. Disabilities can happen to anyone, anywhere, at any time. It could be a sudden illness, an accident or even a weekend sports injury, and you could be unable to work. For many, this means loss of income, family security and independence. And since 28% of U.S. consumers live paycheck to paycheck, not many people have savings or other disposable income they can rely on.¹

Why should I buy long term disability insurance?

If a disability prevents you from earning an income, how will you pay your bills, your rent or mortgage, your car payments and other expenses? There's a lot depending on your paycheck – that's why group voluntary long term disability (LTD) insurance from Unum is important to consider.

What long term disability insurance will do for me?

The GIC's LTD insurance offered through Unum will replace a portion of your income if you are unable to work due to a covered injury or sickness. This means you can protect your family and finances during a time of need.

"What are the odds a disability could happen to me?"

- Three out of ten people between the ages of 35 and 65 will be disabled at some time during their career for three months or longer.²
- Nearly two-thirds of disabling injuries occur off the job and aren't covered by workers' compensation.³

"Can I rely on my health benefits if I have a disability?"

- Health insurance covers only a portion of your medical bills and it doesn't provide any income protection if you are unable to work and earn a living.

Use the worksheet below to calculate your monthly LTD premium

1

Enter your gross annual pay divided by 100.

2

Enter your Premium according to your age from the chart.

3

Multiply line (1) by line (2).

4

Divide line (3) by 12.
This is your monthly cost.*

Example: Employee’s age is 38; Gross annual pay is \$30,000
\$30,000 ÷ 100 = \$300.00 X \$.19 (Premium from chart) = \$57.00
\$57.00 ÷ 12 = \$4.75 (This is your monthly cost.)

How is disability defined?

You are disabled when Unum determines that:

- you are limited from performing the material and substantial duties of your regular occupation due to your sickness or injury; and
- you have a 20% or more loss in your indexed monthly earnings due to the same sickness or injury.

After 24 months of payments, you are disabled when Unum determines that due to the same sickness or injury, you are unable to perform the duties of any gainful occupation for which you are reasonably fitted by education, training or experience.

You must be under the regular care of a physician in order to be considered disabled.

ADDITIONAL BENEFITS AND SERVICES

Waiver of Premium

No premium payments are required for your coverage while you are receiving payments under this plan.

Work Incentive Benefit

During the first 12 months of payments, while working, your monthly payment will not be reduced as long as disability earnings plus the gross disability payment does not exceed 100% of indexed monthly earnings.

Rehabilitation and Return to Work Assistance

Rehabilitation and Return to Work Assistance may be available to help you return to work. If you are eligible, Unum will provide you with a written plan developed specifically for you. Unum will pay an additional disability benefit of 10% of your gross disability payment to a maximum of \$1,000 per month.

Worksite Modification

Should you become disabled, Unum will work with you and your agency to identify potential modifications that will likely help you remain at work or return to work.

Social Security Assistance

If you are receiving monthly payments from Unum, they can provide an advocate to help you apply for and secure Social Security disability benefits. Unum will then coordinate benefits with Social Security payments. The maximum amount payable to you in disability payments will be reduced by your family’s Social Security benefit.
